# Filter Facts.

FILTER is not a luxury. It is an absolute necessity. You cannot afford to drink "raw" Potomac water, which is loaded with mud and typhoid and malarial germs. The cost cannot stand in anybody's way. In former years you could not buy a good Filter for less than \$10. Now we offer you one of the finest Filters made at \$3.50. It will filter every drop of water you need. By replacing the stone occasionally this Filter will last a lifetime. Think of it. Pure water all your life for

An Important Discovery

in Diet.

At the Battle Creck Sanitarium Food Laboratory researches in dietetics have been conducted for over a quarter of a century by skilled physicians and chemists, including very extensive experi-ments made on animals and human beings. One ments made on animals and human beings. One of the most interesting discoveries is the importance of dextrinizing the starch of foods as a means of preventing and curing indigestion, especially acidity, gastric catarrh, constipation, brain fag, rickets in children, weak muscles in adults. As a result of thousands of experiments a new choice food has been produced called Toasted Wheat Flakes, sweetened with Mait Honey, which is thoroughly dextrinized and actually prevents and cures these maladies This sweet, toothsome food may be eaten moist or dry. Know the genuine by a picture of the Battle Creek Sanitarium on the package.

Improvements Proposed by Park Commission

PRESIDENT AND CABINET VIEW THEM

Corcoran Gallery Filled by Officials, Who Inspect the Models.

SCOPE OF THE DISPLAY

The exhibit of the plans of the park commission at the Corcoran Art Gallery yesterday afternoon and evening was visited by a large number of those who had been invited to inspect them, and the splendid collection of illustrations showing improvements that can be accomplished in the Dis-

Mr. Daniel H. Burnham

trict of Columbia was admired by all. Early in the afternoon President Roosevelt and members of his cabinet went to the art gallery and the exhibit was explained to them by Mr. Charles Moore, who assisted the commission throughout its work. From 4 until 9 o'clock the rooms containing the exhibit were open. Members of the Senate and House District committees, the Commissioners, Colonel Bingham, in charge of public buildings and grounds, and many newspaper correspondents viewed the collection. The exhibition is now open to the public under the usual rules of the gallery. Scope of the Exhibit.

The exhibit comprises 170 pictures and plans, together with two clay models 17 by 10 feet in dimensions. The models are in the hemicycle, on the left of the north entrance. A platform has been built near them so that visitors can look down upon a perfect representation of a large portion of the city in miniature, both as it exists today and as it would be with the plans of the commission carried out. The models represent that portion of the city bounded by 3d street east, by I street north and I

street south, and by the Potomac river on the west. The historic value of this model will be very great because of the accuracy with which the city of today is shown on it. Any one acquainted with the city can readily appreciate the accuracy with which the buildings have been reproduced.

As Proposed by Commission. Beside this model is another of similar dimensions, changed to show the mall and public buildings as proposed under the plan of the commission. These buildings are all

of the commission. These buildings are all of classic architecture, planned to be of white marble, and take up most of the available sites between the mall and Pennsylvania avenue, the sites about the Capitol grounds and about Lafayette Square. Through the mall buildings are projected for exhibition purposes of the government. Every detail of the plan for improving the mall is shown on the model, so that an idea can readily be secured how this project will appear from every point of view.

Not the least of the interesting features of the plan is the proposition to have on either side of the green sward extending through the mall from the Capitol to the monument rows of elms. There will be

Mr. Charles F. McKim.

four rows of elms on each side of the green. In order to illustrate what can be accomplished with the elm in this climate there are exhibited pictures of some of the fine old trees in the Capitol grounds and in Lafayette Square. All about the walls of the hemicycle and in the room adjoining on the right of the north entrance are ranged rows of illustrations showing every phase of the proposed improvement. Above these illustrations are pictures of famous buildings, scenes in parks, &c., that have been gathered by the park commission from various cities of Europe, and which to some extent served as models for the work of the commission.

REWARD OF MERIT.

POPULARITY IN LESS THAN ONE YEAR. Throughout a great nation of eighty million it is for a new article, to say nothing of achieving popular favor, and yet within one year Stuart's

with such success that today it can be found in

To be sure a large amount of advertising was ecessary in the first instance to bring the remedy to the attention of the public, but every one familiar with the subject knows that advertising alone never made any article permanently successful. It must have in addition absolute, undeniable merit, and this the new catarrh cure certainly ossesses in a marked degree.

Physicians who formerly depended upon inhalers, sprays and local washes or ointments, now use Stuart's Catarrh Tablets, because, as one of the most prominent stated, these tablets contain in pleasant, convenient form all the really efficient catarrh remedies, such as red gum, blood root and

They contain no cocaine nor opiate, and are given to little children with entire safety and

Dr. J. J. Reitiger of Covington, Ky., says: "I suffered from catarrh in my head and throat every fall, with stoppage of the nose and irritation in the throat, affecting my voice and often extending to the stomach, causing catarrh of the stomach. I bought a fifty-cent package of Stuart's Catarrh Tablets at my druggist's, carried them in my pocket and used them faithfully, and the way in which they cleared my head and throat was certainly reand consider myself entirely free from any ca-tarrhal trouble."

Mrs. Jerome Ellison of Wheeling. W. Va., writes:
"I suffered from catarrh nearly my whole life and last winter my two children also suffered from catarrhal colds and sore throat so much they were out of school a large portion of the winter. brother who was cured of catarrhal deafness by using Stuart's Catarrh Tablets urged me to try them so much that I did so and am truly thankful for what they have done for myself and my children. I always keep a box of the tablets in the house and at the first apeparance of a cold or sore throat we nip it in the bud and catarrh is longer a household affliction with us. Full-sized packages of Stuart's Catarrh Tablet

are sold for fifty cents at all druggists. Send for book on cause and cure of catarrh. mailed free. Address F. A. STUART CO., Marshall

the proposed groves of trees, affording shady retreats in the heat of summer, with fountains lending coolness to the air, and the terraced platform on which the monument will stand according to the plan proposed by the commission. Electric lights have been placed about the rooms, so that quite as satisfactory a view of the exhibit can be obtained in the evening as during the day.

A TWENTIETH CENTURY CAPITAL Park Commission Plans for a New

Washington Should Be Approved. from the Philadelphia Press. the Corcoran Art Gallery an inspiring scheme of systematized improvement which

if realized but in part within the next decade will see the city well started on its models of the city in plaster, architectural gest to the new world, pictures and plans what seem to be a fairyland, instead of a practical solution of a great problem, is under the auspices of the park commission of Washington, and is intended not only as an object lesson to Congress, but as an example to the country at large.

There is no question as to the wisdom of

this unique exhibition, nor of the sound policy of those who are responsible for its existence. As will be remembered, last March Senator McMillan, chairman of the Senate committee on the District of Columbia, managed to secure recognition for his comprehensive plan for beautifying Washington. As a result of his pioneer efforts, D. S. Burnham of Chicago, Frederick Law Olmstead, jr., of Boston and Charles F. McKim of New York were sent abroad last summer as a committee of experts to study the architectural features and the park the architectural features and the park, parkway and landscape effects of the capitals of Europe. Based on this expert study at first hand the commission has prepared a report, of which the exhibition in the Corcoran Art Gallery is the most striking feature, since nothing like it has ever been attempted in the country before

on so splendid a scale.
In the main the "new Washington" which the Burnham-Oimstead-McKim commission has planned follows the L'Enfant plan of Washington's time, but is brought up to date to solve the various architectural and park problems raised by the needs of the government and the growth of the city. There is, of course, no expecta-tion of doing anything more than to develop the city along the lines laid down as occasion warrants. The total cost of as occasion warrants. The total cost of realizing the plan at once, could some Aladdin perform a miracle, would, of course, be enormous, but since the proposed government buildings have to be built anyhow the plans of the commission really represent an economical solution of a very important problem which in the past Congress has only faced to back away from. Naturally the present exhibition presents a complete whole, but it is easy to understand, and it is so arranged that even the most hidebound visitor must feel impressed by its manifold beauties, and the congressional cheeseparers for once will find themselves rather embarrassed in the matter of an excuse for opposition.

find themselves rather embarrassed in the matter of an excuse for opposition.

The sensible thing for Congress to do is to make the plan the new artistic datum, as it were, by which and about which the future improvements of the capital shall crystallize into orderly advance, with utility and beauty the main objects in view. As thing go, it is unlikely the work of Senator McMillan can come to naught, and at all events the exhibition now on is in itself a victory for common sense, as in itself a victory for common well as a triumph of art.

SHOT DOWN BY HIGHWAYMEN.

theriff and His Deputy Killed Near Anadarko, O. T.

A dispatch from Guthrie, Okla., yesterday says: Sheriff Frank Smith and his deputy, George Beck, were killed by highwaymen early this morning in the vicinity of Anadarko, the home of the officers. A posse of 100 men started immediately on the trail of the murderers, but no arrests have been reported. The posse expects a flerce fight before the men shall be taken, and it is known that the notorious highwaymen, Bob McCune, Ben Cravens and Bob Sims are at the head of the gang in

Bob Sims are at the head of the gang in that region.

Sheriff Smith was appointed from Norman, Okla., where he had been on the sheriff's and marshal's forces for a number of years. A number of murders and robberies are charged to the gang that murdered the officers, and efforts to capture them have been made by all the officers in that vicinity.

Sheriff Smith and Deputy Beck met death while storming an Indian hut eight miles west of Anadarko. Highwaymen on Sunday night had held up and robbed persons going home from church and Smith and Beck, accompanied by Deputy Briggs, located the robbers early yesterday morning, in the hut. In attempting to enter Smith was shot through the breast and died in a few minutes. Beck also was shot through the breast and his left arm was shattered. Briggs was not injured. The highwaymen robbed the dead bodies of the officers and then fied. Sheriff Smith made a dying ef-ALL "CHAUNCEYS" AND "LANGTRYS."

# Parker Budget & Co

#### An Extraordinary Purchase and Sale of Genuine Alaska Seal Garments and Other High-Class Furs.

Our buyer, who has just returned from the market, has been most fortunate in securing a number of genuine Alaska Seal Garments and other high-class furs at prices extraordinarily low, in fact, in some instances below manufacturing cost. The purchase and sale of these garments at this time is most unusual, because fine sealskins are rather scarce and prices are advancing. Accordingly, the values are decidedly greater than they would be under normal conditions-although even then they would be sufficiently inviting from a bargain standpoint to insure acute appreciation.

LOT NO. 1—Contains a number skin Coats, genuine London dye, of which \$150 LOT NO. 1-Contains a number of high-grade Alaska Seal-During this sale the price is . . . . . .

LOT NO. 2-Contains a number of the very best quality Alaska Sealskin Coats; genuine London dye. The season's regular price is for this \$188.00

During this sale the price is..... LOT NO. 3—Contains a line of the very best Near-seal Coats. Collars, revers and cuffs are trimmed with \$47.50 mink or beaver. The season's price is \$85.00.

During this sale..... We also offer an extra good lot of Mink Muffs at \$11.00.

Also Alaska Sable Muffs at \$9.75.

Also Real Seal, Persian Lamb and Stone Marten Muffs, at reatly reduced prices.

The saving advantages of this most unusual sale is made more manifest when you have compared the prices with those asked elsewhere for furs of equal quality.

# Omega Oil

# How It Looks

It is important that you

should know how Omega Oil looks, so we print a picture of it here. The printing on the package is all in green ink. The trade mark is a leaf, with the words, "Omega Oil. It's Green." Down near the bottom is the signature-Higinio Espinosa. Look for this name, because it is a guarantee that you are getting the genuine Omega Oil, that has cured so many cases of Rheumatism. Sore Throat, Cold in the Chest, Neuralgia, Stiff Joints, Sprains, Weak Backs, Strains and Bruises. There are a lot of other liniments that may be bought in drug stores, and a few of them are pretty good, too, but you of course want the safest and surest remedy, so you buy nothing but Omega Oil when you have a pain or ache in flesh, muscles or joints. Never mind where the pain is, for the Oil cures in one part of the body just as well as in another. 50c. a bottle.
